ACCIDENT ON DENVER

Day Coach and Pullman Go Down an Embankment.

MANY PERSONS HURT

There Were No Fatalities, but the Number of Passengers Who Sustained Serious or Slight Injuries Considerable.

Bowie, Tex., Aug. 10.—At Fruitland, four and a half miles south of here, a Fort Worth and Denver passenger train, pulled by two locomotives and going at the rate of thirty-five miles an hour, from Fort Worth, while going around the long curve at Fruitland, had an accident at 12:30 o'clock this morning.

The sleeper and day coach jumped the track and rolled down the twenty-foot embankment. About fifty persons were injured, a number seriously. The wreck was caused by a defective rail.

The cars fell to the west, and it was necessary to break the glass in the east windows of the cars, which were on top after the fall, in order to get the people out. In the wild scramble to get out of the cars a great many were badly cut, and when the cars fell many more were bruised and battered up.

The scene was one of great confusion. Men and women were caught in the wreck and their cries for relief were pitiful. As rapidly as possible relief was sent to them and they were helped from the cars and taken to the home of William Jackson, about fifty yards from the wreck, and they were given every possible attention.

There were only three children on the train and fortunately none of them was hurt in the least. Many of the injured and most of them had to be assisted from the wreck and taken to the cars to be transferred to Bowie.

The mental distress of those who were separated from their companions was great until such time as they could be reunited.

Many in the sleeper and day coach were covered up in such a manner that they required assistance before they could be budged, and they were in mortal terror of fire until they were freed from their confinement.

The cars fortunately were not much battered by their fall down the embankment, and stood the jolt excellently. If they had been crushed the loss of life would have been great.

The wreck created the greatest excitement, and as soon as its extent was noted the first engine was uncoupled from the train and made a fast run to Bowie, where the crew told of the wreck and the citizens at once began preparations to go to the scene of the accident. The engine returned with a wrecking crew, five physicians and a large number of citizens, and by the time the wreck was reached the other engine was ready with one or two of the coaches that had been left on the track and many injured persons were soon brought to Bowie.

A later account says the train was not on the curve and was moving slowly when derailed.

At the time of the wreck everyone in the sleeper except one lady had retired and when the cars rolled over everybody was mixed indiscriminately. After being properly separated every aid was given to those needing it.

Dr. Connolly of Hot Springs, not taking time to hunt for his clothing, was carried through the debris in the arms of a brakeman and cared for the injured most heroically. The ladies in the sleeper were unable to find their clothing, especially hats and shoes.

MUCH DAMAGE.

Three Hundred Acres of Farming Land Are Under Water.

Denison, Aug. 10.—It is hard to tell when the main line will be opened on the Katy. Work is being rushed at the Canadian river to put in the approaches, the sudden headwater rise Thursday night giving additional trouble. The railway company has the situation well in hand. The great steel bridge is perfectly safe. A great deal of stock perished in the flood. One man lost thirty-five head of mules. A number of houses were also swept away. No lives were lost.

The Frisco people received no news from the Canadian crossing up to noon Friday, but expected the bridge would be crossed. Dense clouds were hanging over the Canadian valley Friday. Another downpour was expected.

Parties from the Canadian river valley report 300 acres of farming land are under water, largely corn and cotton. At some points the river is several miles in width.

Shea Again Elected.

Chicago, Aug. 10.—Cornelius P. Shea was elected to succeed himself as president of the International Brotherhood of Teamsters. The delegates who bolted continued to absent themselves, and took no part in the election. The vote for president stood 158 for Shea and 15 for John White of New York.

PURCHASES OF SILVER

For First Time In Thirteen Years White Metal Buying

TO BE DONE BY NATION

Deliveries Are to Be Made at the Philadelphia, New Orleans and Denver Mints and Supply Kept on Hand.

Washington, Aug. 10.—For the first time in thirteen years the government announced Thursday its purpose to purchase silver for coinage purposes. Tenders are invited at the office of the director of the mint on Wednesday, the 15th inst., up to 1 o'clock p. m., and every Wednesday thereafter until further notice. These tenders are to be for delivery at the Philadelphia, New Orleans or Denver mints, settlement to be on the New York basis of bullion guarantees of .999 fine.

The treasury reserves the right to reject all tenders, or accept such part of any tender as may suit its convenience, as it is understood that, anticipating that its appearance as a purchaser might temporarily disturb the market unduly, the treasury has already obtained control of considerable amounts for future delivery, so that it is in position to drop out of the market for several months if desirable. The average requirements of the treasury throughout the year will probably not exceed 100,000 ounces per week, and it will be the policy of the department, while keeping a reasonable amount on hand, to so distribute its purchases throughout the year, that its demands will be uniform and not an element of uncertainty in the market.

From the resumption of specie payments in 1879 down to the year 1900 the constant increase in the stock of subsidiary coin required by the growing population was supplied by the recoinage of old and undercurrent subsidiary coins which accumulated in the treasury under the resumption act. In 1900, as this stock was running low, authority was granted in the monetary act of March 14 to the secretary of the treasury to divert bullion purchased under the act of July 14, 1890, for the coinage of silver dollars to the coinage of subsidiary pieces.

Under this authority about \$33,000,000 has been coined since 1900.

The stock of bullion in the treasury was exhausted more than a year ago, and since then no bullion has been available for the subsidiary coinage.

HERING ARRESTED.

Cashier Will Be Held Without Bail Until He Explains Matters.

Chicago, Aug. 10.—Henry W. Hering, cashier of the Milwaukee Avenue State bank, was arrested, and will be denied bail until his connection with the disappearance of nearly \$1,000,000 of the bank's funds is cleared up. Paul O. Stensland, president of the defunct institution, is still a fugitive, and although nearly 100 detectives are hunting for him, his whereabouts is still a mystery.

Hering was arrested Thursday afternoon, two hours after he announced that he would give himself up. He was taken to the office of Chief of Police Collins and put through a thorough examination as to his knowledge of President Stensland's mismanagement of the institution. Hering declared that he did not know where Stensland was, and has had no communication with him for over a week. The cashier strenuously denied that he (Hering) was partly responsible for the failure of the bank.

The most startling disclosure of fraudulent work was a "side" ledger which Cashier Hering took from a hidden drawer. This, he is alleged to have admitted to the investigator, was kept from the state bank examiner on his annual visits. In so far as the investigation was made were found entries of loans, practically without security, aggregating \$191,000.

COUPLE KILLED.

Racing Automobile Car Plunges Into a Farm Wagon.

New York, Aug. 10.—Two chauffeurs were killed, two injured and two escaped unhurt when a racing car plunged into a farm wagon on Thompson avenue, near the Winfield crossing of the Long Island railroad. The driver of the wagon was unhurt, as he leaped before the crash. The men killed were:

William Waller, twenty-three years of age, and Harry Woodcock, both of New York. Both landed on their heads, their skulls being crushed.

Illness Was Brief.

St. Louis, Aug. 10.—After an illness of less than a day City Passenger Agent Hunt of the Chicago and Alton railroad died Thursday of kidney trouble.

Essex McKenzie, a negro, under death sentence at Dallas on wife murder conviction, passed away from tuberculosis.

AFFAIRS AT AUSTIN.

Several Texans at State Capital on
Important Business.

Austin, Aug. 10.—D. T. Bomar of
Fort Worth, general attorney general
of the Abilene and Northern Railway
company, filed an application with the
railroad commission for authority to
cross at grade track of Texas and Pa-
cific railway at Abilene. The matter is
set for hearing Aug. 15.

Attorney Rhodes S. Baker of Dallas
came here and secured the approval
of the attorney general and filed with
the secretary of state the charter of
the Texas and Northern Railway com-
pany with principal office at Fort
Worth; capital stock is \$100,000. The
proposed line is to run from Fort
Worth to Egan, in Johnson county,
thence to Dallas, a distance of sixty
miles.

Judge John G. Griner of Del Rio con-
ferred with the attorney general in an
effort to get the department to re-
verse a recent opinion that guayule
land in southwest Texas should be
classified as timber land. Guayule is
a rubber plant and Judge Griner is
anxious to develop it. He furnished
the department with evidence that the
plant is not timber, but classified by
all botanists as a bush.

SENSATION ON GALLOWES.

Just Before Being Hanged Fletcher
Made Charge Against Judge.

Birmingham, Ala., Aug. 10.—Earle
Fletcher, a negro, who was hanged
here Friday for the murder of Bob
Payne, a fellow convict at Flat Top
mines, created a scene by denouncing
Criminal Judge Weaver from the scaffold
just before the drop fell. He de-
clared that the judge had granted the
habeas corpus to John Williams, a
white man, from another county, and
saved his neck the day before he was
due to hang, but when it came to his
own case, a citizen of Jefferson county,
the court went fishing. Fletcher said
that "going fishing" was given as an
excuse for the judge to leave town to
avoid granting him a habeas corpus
writ. Fletcher died without fear, say-
ing he had religion. He was serving a
fifteen-year sentence for the murder of
a negro named Harris when he brained
Payne with a coal pick.

BISHOP'S DENIAL.

Episcopal Prelate Did Not Start
"Endless Chain of Prayer."

Boston, Aug. 10.—So much annoy-
ance has been caused to Rt. Rev. W.
Lawrence, Episcopal bishop of Massa-
chusetts, by a flood of letters which
have been pouring in for several
months regarding the so-called "end-
less chain of prayer," which is alleged
to have been started by him, that the
bishop has found it necessary to issue
the following denial that he is connect-
ed with the matter:

"The endless chain of prayer, said to
have been written by Bishop Lawrence,
is a hoax. Bishop Lawrence of Massa-
chusetts never wrote it, and knows
nothing about it. It is the work of
some demented or mischievous per-
son."

DEATH OF MRS. IDA EDGE.

Mrs. Ida Edge, wife of Mr. W. H. Edge of Beaumont, died Thursday night at midnight at the home of her mother, Mrs. Shealey, in the Reliance community after a lingering illness. Mrs. Edge and her husband were both reared in Brazos county, and she was 35 years old and a member of the Baptist church. She bore her long illness with Christian fortitude. She was of lovable character and her death casts a gloom over that and other communities wherever she was known. She leaves a husband and four children who were all with her at her death. The funeral was held yesterday afternoon at Reliance church, Prof. D. J. McDonald conducting the service.

THE NEW VISIBLE

At Last a Perfect Visible Typewriter

The One Typewriter That Correctly Solves the Objections That Have Always Heretofore Been Made Against "Front Strike" Machines.

Visible writing has always been considered as desirable by practically all typewriter manufacturers, but the difficulties to be overcome in construction in order to secure durability have discouraged the very large adoption of these machines. The invention of the method of assembling the type bars as it is done in the Fox Visible has, however, made possible the use of a wide pivotal bearing in the type hanger, thus insuring the most perfect alignment at all times and a durability that is equal to that claimed for any "basket type" machine. In building this new model, we have all the advantage of the knowledge that we have gained in building and placing the regular Fox models on the market and we are able to avoid all those experiments found in new machines which are so expensive to the purchaser.

Here is a Short Description.

THE TYPE HANGER—The hanger has a pivot bearing 7-16 of an inch wide. This allows the use of a heavy type bar, providing an adjustable pivot bearing which takes up wear as it occurs, thereby giving a permanent alignment that is impossible to secure with a narrow bearing without adjustment, and avoiding the trouble caused where "forced alignment" is necessary. This is the feature that has heretofore been considered as being impossible to secure in a visible writing typewriter. It is found only in the Fox and places the Fox Visible in a class by itself.

TWO COLOR RIBBON—The ribbon movement on this machine is simply perfection. It reverses and oscillates automatically, requiring no attention from the operator from the time it is put on until worn out. When a two color ribbon is used, by simply touching a button on the keyboard the second color is secured instantly without raising the hand or even looking.

THE INTERCHANGEABLE CARRIAGE—The carriage is so constructed that it can be quickly removed and a carriage of different length substituted. One

Every feature on this machine has been tried out and demonstrated as successful on the Regular Models of the Fox. Unprejudiced experts have without hesitation pronounced the machine a marvel.

Ask your nearest typewriter dealer to show you this machine. If he cannot we will make it easy for you.

The regular models of the Fox are still the most perfect machines of their kind and their manufacture will be continued as before.

machine can be purchased with different sizes of carriages, thereby effecting a great saving over the ordinary method of buying a long carriage machine complete. The carriage is ball bearing and runs with a tension of only 1 lb.

PERFECT VISIBLE WRITING—The entire line is visible all the time.

THE KEY TENSION—The force required on the part of the operator to print a letter is only 2 1/2 ounces. This is from 25 to 50 per cent. less than any other. It is a vital thing both from the operator's standpoint of less fatigue and the owner's of greater durability.

THE LINE LOCK—When the carriage reaches the end of a line, the keys lock and nothing more can be written until the release button is used or the carriage returned to begin a new line.

ALUMINUM KEY LEVERS—Key levers are made of aluminum. It is more expensive than steel or wood, but it is very much more desirable.

TABULATOR—The Fox ten stop decimal tabulator is attached when ordered, at slight additional expense. It is the only decimal tabulator in use on a visible typewriter.

ABDUCTION CHARGED.

Weaver Alleged to Have Taken Laney's Wife and Baby.

New York, Aug. 10.—Henry Ralph Weaver, twenty-four years of age, was held in police court to await extradition papers from Pittsburgh on a charge of abduction. S. C. In court Weaver refused to disclose the whereabouts of Mrs. Laney and the child. Weaver was arrested Thursday at the postoffice when he called for his mail.

FIRST STEP TAKEN.

Petition For Involuntary Bankruptcy Has Been Filed.

Chicago, Aug. 10.—The first step in the dissolution of outside companies with which Paul O. Stensland, the missing president of the Milwaukee Avenue State band, was identified, has been taken. A petition of involuntary bankruptcy was filed against the Milwaukee Avenue Co-operative store by attorneys representing the State street Department store. The petition was filed before Judge Betha and arrangements made by him to appoint a receiver as soon as possible. Stockholders of the Milwaukee avenue store number 6,000 persons, many of them workmen. The shares are \$10 each. The individual liability of these shareholders. It is claimed, is a mooted point, and it may be that the court will hold that the creditors of the company have recourse on individual property of them all.

Henry W. Hering, the cashier of suspended bank, was taken to the institution Friday. He was taken to the bank by two detectives and every precaution made to get him inside the bank without the knowledge of several hundred persons around the place. Safe inside, Hering immediately began to guide the authorities around to different vaults and secret places.

COMPANY EXPLAINS.

Desires Situation at San Francisco to First Adjust Itself.

Manchester, N. H., Aug. 10.—In announcing that the New Hampshire Fire Insurance company suspended business on the Pacific coast the officers of the company gave out a statement saying the suspension was due to the fact that the company desires to permit unsettled conditions in San Francisco and the Pacific slope generally to adjust themselves before taking on further liability. The company's losses at San Francisco, the statement says, will be settled for about \$500,000. The company's statement Jan. 1 showed a capital of \$1,000,000 and a net surplus of \$1,250,000.

SEVERAL MEET.

Sheriffs, District and County Clerks, Tax Collectors and Treasurers.

Dallas, Aug. 10.—Before holding separate conventions the sheriffs, district clerks, county clerks, tax collectors and county treasurers of Texas held a joint meeting. County Clerk Shanks of Dallas presided. Mayor Smith welcomed the visitors and T. L. Corlin of Beaumont responded for the clerks. He declared he came from a section where oil spouts so high it almost leaves grease spots on the sun. Mr. McDaniel responded for the tax collectors, and President Goodfellow of the sheriffs for his organization.

Each association then held a separate convention.

There was an attendance of about 200 at the sheriffs' convention.

The regular business was suspended in order to allow Hon. Clarence Martin of Llano to present a portrait of Secretary-Treasurer John P. Kirk to the association. The portrait is an excellent likeness of the venerable secretary, who has held the position from the organization of the association.

Judge Martin praised the Texas Sheriffs' association, and asked all citizens to help the members enforce laws. Judge E. B. Muse of Dallas responded.

Captain Corwin of Austin, the association's first president, reviewed the work of the organization from its inception.

The speaker referred feelingly to the pioneer times in Texas, when he and Captain Kirk had fought Indians together; to the civil war, when they were comrades in the Confederate ranks; to the dark reconstruction days when they joined hands in bringing order out of chaos and resisting carpetbag rule in Texas, and lastly to their united efforts in creating the Texas Sheriffs' association.

Secretary Kirk feelingly responded, and said he was thankful he was not dead, but had an opportunity of listening to the many nice things said about him by Captain Corwin and others.

Judge V. W. Grubbs spoke on education.

In the tax collectors' convention the report of President McDaniel with reference to the employment of attorneys to represent the tax collectors in a controversy with the attorney general's department was adopted. The report showed a balance on hand of \$19.48, which was turned into the treasury of the association.

Several recommendations of the committee on legislation were adopted.

Treasurers had an informal discussion of several matters.

At the meeting of the County Clerks' association President Shanks directed attention to the necessity of new legislation on broader lines. Several matters were touched on by the speakers.

TWO BEATEN TO DEATH.

Terrible Double Tragedy Occurs in Jail at Lufkin.

Lufkin, Tex., Aug. 10.—As Deputy Sheriff Nerren opened for breakfast the jail doors Thursday he was met by Wilson alias Welch, one of the three prisoners. He asked where the other two were. Wilson said he did not know. The deputy proceeded to investigate. Upon reaching the cell occupied by Traweck he found him apparently asleep in his bunk, but on further investigation he discovered that his head was crushed into a pulp, and that he lay bathed in his own blood. He then crossed the hall into the cell of Sam Chandler and found him in a similar condition.

Upon inquiry of Wilson, he stated that he had had a little row during the night, and that he had fixed them with that bucket, pointing to a heavy iron sloop bucket.

Both dead men would have in a few weeks served their terms. Traweck was charged with attempted criminal assault and Chandler was convicted of carrying brass knuckles.

Wilson, who apparently seemed to be a crazy man, was arrested at Pollock, Tex., some days ago upon suspicion of a similar character.
